**To Save Yourself and Our People! A Step By Step Plan.**

**Our Problems are neither Political nor Rational; therefore, they cannot be resolved as such.**

We cannot afford to make the mistake of a dog, which, when hit with a stick, tends to bite the rod instead of the hand that is hitting him.

We must rather eliminate **the cause** – the rebellion against G-d's commandments, **than fight the dangerous effects.**

**Y O U R S** and Our People's Survival was and will be in merit **that:**

**A L L of Israel Learn and Observe MIKVA!** (Sanhedrin 94)

Since Mikva is - a most effective way to lead man to recognize his Creator, (See par. 69), accept Torah observance and effect a transformation from life of disinterest to life of dedication and devotion to G-d, therefore, repentance requires immersion - thus making

PEACE with HEAVEN for PEACE on EARTH !

**Consequently, to save Yourself and Our People,**

**it is not enough, and too easy, just to recite**

**additional prayers, increase your charity etc. Mikva Promotion is also a must!**

**Create committees to bring the message of Mikva to A L L our people!**

**Request and distribute revealing & inspiring Mikva educational materials!**

**Support Mikva Outreach, and those dedicated to it !**

**The issue is not building Mikvas! Because: the greater need nowadays is to create awareness and promote observance, which will also increase the building of Mikvas as needed! Many Mikvas have been built, worldwide, by people we reached & inspired. We delivered over 500 lectures & distributed 50,000 booklets in about 10 national leadership conventions yearly. Endorsed by the generation's rabbinic leadership, their list is in our office. However, results are our best endorsements. See 39 astonishing testimonials in this booklet! You too, can and should undertake Mikva Outreach, and/or support those who are doing it for you! Mikva Education, is also Torah education; Therefore, an important portion of school & synagogue learning time & budgets should be allocated for it !**

**10 Million Jews are in danger** of assimilation and intermarriage! Our problem is beyond numbers. The Jewish people can and will persevere even as the smallest of all nations. Our main problem is that the option to intermarry is an insult to our Jewish heritage and our Creator, Blessed be He, whose vengeful wrath endangers all of us, **י"ן**. (See par. Intermarriage xx), As it happened in the "Shitim," where one quarter of our people were involved with "Moav" and all of them died. Only the bold protest of Pinchas stopped the process and was able to appease the wrath of G-d who planned, due to the lack of protest to annihilate the totality of our people Israel. Intermarriage struck again in Germany. Nazism **ש"מ**, rose in wake of it, endangered Jews world over, and who knows, if the Holocaust which destroyed one third of our people, was not in part due to it! Our problems today, in the land of Israel and around the world might also be, in part, due to the offense that too many of our people do not observe Torah laws and over half of the Jews in the Diaspora do intermarry. To ensure that a dreadful historical event will not repeat itself we must promote Mikva which leads to repentance, curb and stop intermarriage. Nowadays, our most effective means to deter the spiritual Holocaust of intermarriage is "Mikva Education Outreach." By promoting Purity which leads to Sanctity, and thus creating an appreciation of being part of a holy nation, those involved will realize what they have to lose by marrying out of the faith, and it will inoculate them against intermarriage. (Bamidbar 25, Ramban).

**Mikva Education Outreach can curb intermarriage and the vanishing of our youth from the Jewish horizon!**

However, to educate 10 Million Jews and offer, as required, Mikva educational materials free of charge, beyond the need for lectures & public events to motivate them to read the materials ...**the yearly cost of this project exceeds millions of dollars**. Mikva promotion absence is the problem today! Communities that can afford to reside in houses instead of caves can afford to build Mikvas even for the small difference in price between one basic and one luxury car. For the cost of building one Mikva, an effective Mikva outreach campaign may inspire thousands to learn, observe and build Mikvas with their own means, while acquiring greater reverence for them. ...**Therefore**, although any donation helps and is appreciated, nevertheless, **please consider that:** to be **serious** and **effective**, **every** observant family should **join** in this outreach effort, and also **strive** to contribute regularly, **at least** an amount **equal** to their family's **annual** expenditure for the daily and monthly Mikva use, **currently between \$200-\$500**. Moreover, the large budget requires the financial backing and support of **major contributors and sponsors**.

**All of us share the responsibility equally! Local Mikva efforts do not exempt you from global Mikva outreach obligations!**

Just as local taxes do not exempt you from federal taxes.
